

Your music where you want it— wirelessly. HP Wireless Audio transforms any PC⁽¹⁾ into a fully integrated wireless audio system. The same state-of-the-art sound delivered to 4 different locations in your home.

Premium audio performance.

Supports 5.1 speaker systems. Zero lag time. No interference. Advanced tri-band—2.4, 5.2, 5.8GHz— wireless connection.

Powerful 4-zone range.

Turn your PC⁽¹⁾ into a full-fledged home audio system. The same amazing audio streams to 4 different areas in your home.

Easy & direct set-up.

HP Wireless Audio connects in few simple steps. This state-of-the-art software is so intuitive, it automatically 'sees' your speakers and links them together. Pair it and forget it. Never connect them again.

Far-reaching 100ft (30m) span.

HP Wireless Audio streams your sound— music, movies or games— up to an incredible 100ft (30m) in any direction.

Features and Benefits

- Small transmitter plugs into your PC USB port.
- Compact receiver tucks away anywhere. Its small size equals a bar of soap.
- Intuitive software takes the guess work out of managing your system.
- Superb, uncompressed audio quality with 5.1 audio support.
- Easy. Intuitive. Exclusive.⁽²⁾ State-of-the-art software automatically 'sees' & links your speakers in a few simple steps.
- Pair it and forget it. Speakers & headphones automatically connect each time.
- Streams same audio to 4 different zones.
- Transmitter blasts audio up to an impressive 100ft (30m) in any direction.⁽³⁾
- No interference with other devices. Tri-band frequency— 2.4, 5.2, 5.8GHz— delivers the best possible wireless performance.
- No lag time. Zero latency. Your movies and games are always in sync.
